TIA

Tia, 26, is an acrobatic dancer who graduated from the Centre national des arts du cirque de Châlons-en-Champagne in December 2020. She is a member of Raphaëlle Boitel's L'Oublié(e) company. Always on the lookout for a new venue and a diversity of forms, Tia is fascinated by the possible explorations and variations of her body. Immersed in volumes, textures and materials from an early age, she likes to develop her art as such, giving it a total dimension. For her, acrodance is a tool, a hybrid and singular form of bodily expression, which she chooses to develop in a fluid, instinctive and poetic way. Today, her work navigates between the stage, advertising, fashion and digital creations, making the plurality of her fields a creative richness.
